Education

Masai School

April 2024 – January 2025

Full Stack Web Development

Bangalore, India

Relevant Coursework: Data Structures and Algorithms (java), Learned MERN stack through an intensive, project-based program focused on real-world web development.

Muzaffarpur Institute of Technology (MIT)

Aug 2018 – Aug 2022

B.Tech in Mechanical Engineering

Muzaffarpur, Bihar, India

- Built strong analytical and problem-solving skills with a self-driven transition into software development.

Experience

YourDOST

April 2024 – January 2025

SDE1

Bangalore, India

- Led the development of the company homepage and key pages (Team, Jobs, Privacy Policy) using Next.js, enhancing site structure and navigation.
- Built reusable components (testimonials, forms) to improve user engagement and visual consistency.
- Launched the Christmas Cheers Campaign App, enabling users to send festive wishes, increasing platform interaction.
- Enhanced user messaging functionality, optimizing performance and real-time communication.

Additional Contributions:

Built dynamic tools in the Wellness Dashboard including RedFlag, CSM interface, and Influence Level—streamlining workflows and improving expert-client interaction.

Projects

Company Homepage Development – YourDOST

Apr 2024 – June 2025

Tech Stack: Next.js, React.js, Material UI (MUI), Formik, Yup, Axios, Firebase, SCSS (Sass)

- Led the development of the company's homepage and multiple high-impact pages like Jobs, Team, and Privacy Policy.
- Built reusable components (testimonials, dynamic banner, footer, forms) and implemented routing for a seamless navigation experience.
- Improved page performance and visual consistency, contributing to better engagement and first impressions. [Live Site](#)

JioMart Clone

Jan 2024 – Feb 2024

Tech Stack: React, React Router, Redux, CSS, Firebase

- Developed a full-featured e-commerce web application for seamless online grocery shopping across India.
- Implemented product browsing, cart management, checkout, and order tracking using RESTful APIs.
- Ensured responsive design and intuitive UI/UX for optimal performance across devices and screen sizes.
